

Summertime

Rocky Mountain Park, a summer getaway, with bugling elk and soaring eagles you see them every day. With cool refreshing air and great picnic weather. I photograph the nature and spend time with my family.

The Denver Zoo, a place to stay, for animals everywhere. With colorful birds soaring in the bright blue sky. "ROAR!", says the lion while the seals play in their pool. The monkeys howl, annoying the tigers who were trying to fall asleep. I will miss my animal friends until I come again.

I smell burgers and their attracting smell! With ketchup and cheese, wheat buns and pickles they're sure to be juicy and warm on the BBQ.
